

**VINCITORI PROGETTO GIOVANI
XLV CONGRESSO SIN CAGLIARI 2014**

COGNOME	NOME	AFFILIAZIONE	Contributo scientifico
Albanesi	Carlo	Ancona	ZOSTER-ASSOCIATED MULTIPLE CRANIAL NEUROPATHIES (ZAMCs): A CASE REPORT.
Alemseged	Fana	University of Tor Vergata	Clinical and functional outcome after stroke in patients with symptomatic intracranial stenosis: results from a prospective study
Allocca	Roberto	Federico II	Presence and progression of non-motor symptoms in relation to uric acid in de novo Parkinson's disease
alvisi	elena	Pavia	AN EXTENSIVE NEUROPHYSIOLOGICAL ASSESSMENT IN AMYOTROPHIC LATERAL SCLEROSIS AND FRONTOTEMPORAL DEMENTIA: DIFFERENCES AND COMMON POINTS
Aste	Rosa	ASL Oristano - H. San Martino	Acute motor neuropathy with reversible conduction blocks and unusual anti-ganglioside complex IgM antibodies: an uncommon Guillain-Barré syndrome case
Bagella	Caterina	Istituto Neurologico "Carlo Besta"	Phenotype of Parkinson's disease (PARK2): comparison of single heterozygous mutations carriers vs biallelic mutations carriers
Baiardi	Simone	Alma Mater Studiorum - Bologna	Sleep-readiness signals in insomniacs and good sleepers
Baldinelli	Sara	Università politecnica delle marche	Myotonic dystrophy type 1: a pragmatic problem?
Barbagallo	Gaetano	University Magna Graecia	ANTI-GAD-ASSOCIATED INFLAMMATORY MYOPATHY PRESENTING WITH DROPPED HEAD SYNDROME
Baroncini	Damiano	Vita Salute San Raffaele	BODY Weight gain after DBS-STN in Parkinson's disease: a psycho-neuro-endocrinological study
Barone	Stefania	University "Magna Graecia"	Neuroimaging characteristics of the corpus callosum identify different levels of physical and cognitive disability in relapsing-remitting multiple sclerosis patients
Bartoli	Caterina	University of Florence	Huntington's disease: microstructural and functional MRI study of the early stages of neurodegeneration
Bellavia	Marina Angela	Magna Graecia University, Catanzaro, Italy	Epilepsy associated with leukoaraiosis mainly affects temporal lobe.
bernetti	laura	Università Degli Studi Di Perugia	Clinical features of Medication Overuse Headache at baseline could predict the outcome after treatment: insights from the SAMOHA study.
Bianco	Assunta	Catholic University of Sacred Heart	Second-line therapy with fingolimod for relapsing-remitting multiple sclerosis in long-term clinical practice: the effect of previous exposure to natalizumab.
Bisecco	Alvino	Vita-Salute San Raffaele University	Regional Thalamic Damage and Cognitive Impairment in Patients with Multiple Sclerosis: A Multicenter study
Bono	Valeria	University of Palermo	LUMBAR ROOT NEURINOMA AS A POSSIBLE CAUSE OF MERALGIA PARESTHETICA
Borrelli	Iole	"G. D'Annunzio" University of Chieti-Pescara	MYOCLONIC-CHOREIC HEMISYNDROME IN CAVERNOUS ANGIOMA OF THE LEFT CAUDATE NUCLEUS: HEAD SUCCESSFULLY TREATED WITH LEVETIRACETAM: A CASE REPORT
Borzi'	Giuseppe	Università Magna Graecia	Lacosamide in mesial temporal lobe epilepsy (MTLE) with hippocampal sclerosis (HS)
Cafazzo	Viviana	Università Politecnica delle Marche	Numerical knowledge in semantic dementia and alzheimer's disease
Cammarosano	Stefania	University of Study of Turin	A novel p.E121G SOD1 heterozygous missense mutation in an apparently sporadic ALS case with a 14-year course.
Canosa	Antonio	University of Torino	The cognitive reserve hypothesis in amyotrophic lateral sclerosis and frontotemporal dementia: evidence from a clinical and 18F-FDG-PET study
Capuana	Maria Luisa	University of Catania	Executive dysfunctions in Cluster Headache: neuropsychological profile in active and remission phase
carapelle	elena	Foggia	Syndromic variants of Primary Progressive Aphasia: a comprehensive evaluation of three typical cases.
CARLINI	GIULIA	Politecnica delle Marche	PRURITUS AS INITIAL MANIFESTATION OF STIFF-PERSON SYNDROME
Carluccio	Maria Alessandra	Siena	Vitamin D deficiency in CADASIL patients
Carotenuto	Antonio	"Federico II" Napoli	IgGs purified from serum of multiple sclerosis patients during relapse inhibit oligodendrocyte differentiation.
CERINO	ANNALISA	PIEMONTE ORIENTALE, A. AVOGADRO	DEFECTIVE VISUAL INHIBITION IN MIGRAINE WITH AURA
CHIAPPARINO	CONCETTA	UNIVERSITY OF BARI MEDICAL SCHOOL	Carotid Stiffness and Cerebrovascular Events: is there a link?
Chisari	Clara Grazia	University of Catania	TREATMENT ADHERENCE IN MULTIPLE SCLEROSIS: ORAL VERSUS PARENTERAL DRUGS

**VINCITORI PROGETTO GIOVANI
XLV CONGRESSO SIN CAGLIARI 2014**

COGNOME	NOME	AFFILIAZIONE	Contributo scientifico
Chiti	Alberto	Università di Pisa	Sonothrombolysis in patients with ischemic stroke due to middle cerebral artery occlusion: a single centre experience
cirillo	giovanni	University of Naples	Role of single fiber electromyography (SFEMG) in the differential diagnosis of bulbar onset motor neuron disease and myasthenia gravis
Codeluppi	Luca	Università degli studi di Modena e Reggio Emilia	EEG predictors of good neurological outcome after cardiac arrest in patients treated with therapeutic hypothermia
Conte	Francesca	Seconda Università di Napoli	Executive resting-state network connectivity in migraine with and without aura
Conti	Marta Zaffira	Ospedale Papa Giovanni XXIII	Quality sleep in newly diagnosed multiple sclerosis
Cortese	Rosa	University of Bari	Low serum vitamin D concentrations in amyotrophic lateral sclerosis.
Cortese	Francesca	Sapienza University of Rome	Effect of high-level bladder filling on spinal cord neurons excitability.
Cotelli	Maria Sofia	Università di Brescia	Asymptomatic Wernicke Encephalopathy: a case report
cucca	alberto	Università degli Studi di Trieste	Acute Myelitis as presenting symptom of HIV-HTLV-1-coinfection: a case report
Curcio	Maria	University Magna Graecia	Bilateral transverse sinus stenosis induces white matter abnormalities in idiopathic intracranial hypertension
Dalla Costa	Gloria	San Raffaele University	Artificial Intelligence techniques in the diagnosis of Multiple Sclerosis
Damato	Valentina	Catholic University	Neuropathic itch as a feature of Neuromyelitis Optica spectrum disorders
D'Ambrosio	Alessandro	Department of Medical, Surgical, Neurological, Metabolic and Aging Sciences - Second University of Naples - Naples	MICROSTRUCTURAL WHITE MATTER DAMAGE IN FATIGUED MULTIPLE SCLEROSIS PATIENTS: A DTI-TBSS STUDY
d'amico	aurelio	University of Naples - Naples	Embolism from PFO or Surfesac™ like myelopathy: a difficult diagnosis for a case of acute anterior spinal cord ischemia
D'Amico	Maria Chiara	Università "G. d'Annunzio"	HOLMES-LIKE TREMOR IN ATAXIA WITH OCULOMOTOR APRAXIA TYPE 2
D'Anna	Lucio	Udine	Clinical features and outcomes of West Nile virus neuroinvasive disease (WNV) in Portogruaro, Venice, 2012.
de Biase	Stefano	University of Udine	An atypical case of peripheral nervous system vasculitis treated with rituximab
De Fino	Chiara	Università Cattolica del Sacro Cuore	Acute disseminated encephalomyelitis associated with Cytomegalovirus infection: a case report
De Lucia	Maria Caterina	Sapienza University of Rome	P300 AND CEREBELLAR STROKE: A CASE REPORT
De Micco	Rosa	I Clinica Neurologica - Seconda Università degli Studi di Napoli	Pattern of regional cortical thickness in patients with Parkinson's disease and impulse control disorders
de Pasqua	silvia	Università di Bologna	AMYOTROPHIC LATERAL SCLEROSIS FOLLOWING MYASTHENIA GRAVIS
De Piazza	Claudio	Valduce Hospital	Gabapentin for the treatment of behavioral and psychological symptoms of dementia. A review of the evidence
De Rosa	Anna	Pisa	Myasthenia Gravis, Amyotrophic Lateral Sclerosis and thymoma: report of two cases of this rare association
Degan	Diana	L'Aquila	Incidence of transient ischemic attacks in the L'Aquila district according to the new definition
DI GIACOMO	ROBERTA	UNIVERSITY "G. D'ANNUNZIO"	A dangerous mimicker of Guillain-Barré syndrome.
Di Tommaso	Valeria	University "G. d'Annunzio"	ANTI-JCV SEROSTATUS, INDEX VALUE AND CLINICAL FEATURES IN PATIENTS AFFECTED BY MULTIPLE SCLEROSIS
Dibilio	Valeria	University of Catania	Increased executive load during turning contributes to freezing of gait in Parkinson's disease
Distaso	Eugenio	Università degli studi di Bari	Use of Motor Evoked Potentials in ALS clinical practice: application for future diagnostic criteria?
Distefano	Marisa	Catholic University of Sacred Heart	Level of acute blood pressure may influence long term outcome in ischemic stroke patients: a prospective observational study in a stroke unit setting.
Docimo	Renato	Dipartimento di Medicina, Chirurgia, Scienze Neurologiche, Metaboliche e invecchiamento Scienze Seconda Università di Napoli	Longitudinal DMN changes in cognitively preserved MS patients
Donnini	Ida	University of Florence	TWO CASES OF CEREBRAL VENOUS THROMBOSIS: THE DANGEROUS ASSOCIATION BETWEEN CORTICOSTEROIDS AND LUMBAR PUNCTURE
esposito	sabrina	Second University of Naples	DEFAULT MODE NETWORK CHANGES IN DEPRESSED MULTIPLE SCLEROSIS PATIENTS

**VINCITORI PROGETTO GIOVANI
XLV CONGRESSO SIN CAGLIARI 2014**

COGNOME	NOME	AFFILIAZIONE	Contributo scientifico
Failli	Ylenia	Università degli Studi di Firenze	Effective thrombolysis followed by behavioural disorders, long-term memory deficits and restless legs syndrome: a case report.
Falco	Fabrizia	Seconda Università e Università Federico II	Neuropsychological correlates of Pisa Syndrome in Parkinson's Disease
Fantini	Jacopo	Università degli studi di Trieste	Coexistence of SUNCT and hypnic headache
Farina	Olimpia	second university of Naples	Symptomatic heterozygosity due to definite GAA mutations, in late onset Pompe disease
Femiano	Cinzia	Second University of Naples, Naples	Microstructural changes across different stages of disease in amyotrophic lateral sclerosis
Ferrari	Laura	Vita Salute S. Raffaele	Involvement of the retinal fiber layer in early Alzheimer's disease: evidence from optical coherence tomography
Fiori	Chiara	Politecnica delle Marche	ADULT-ONSET FOCAL MYOCLONUS IN UNKNOWN MALFORMATION OF CORTICAL DEVELOPMENT.
Forlivesi	Stefano	University of Verona	Long-term clinical, cognitive and MRI characteristics of patients with untreated benign multiple sclerosis: a natural history study
Formica	Alessandra	Sapienza	Investigation of brain atrophy distribution in progressive supranuclear palsy by combining region-based and voxel-wise analyses
franco	giovanni	Università degli studi di Bari	Pain stimuli processing in pre-symptomatic and early Huntington's Disease
Frazzini	Valerio	G.D'Annunzio chieti-pescara	Altered Kv2.1 Dependent Delayed Rectifier K+ Currents Promote Increased Excitability In 3xTG-AD Hippocampal Neurons
Gandoglia	Ilaria	Università di Genova	A CASE OF EARLY FIBRINOGEN DEGRADATION COAGULOPATHY AFTER ALTEPLASE INTRAVENOUS TREATMENT IN ISCHEMIC STROKE
Gardinetti	Margherita	Università degli studi di Milano-Bicocca	CHRONIC RELAPSING INFLAMMATORY OPTIC NEURITIS (CRION): TWO CASE REPORTS
Garnero	Martina	University of Genoa	Indication to the use of IVIg in motor mononeuropathies (MM)
Gastaldi	Matteo	Università degli Studi di Pavia	OUTCOME PREDICTORS AND CONVERSION TO MULTIPLE SCLEROSIS IN AUTOIMMUNE INFLAMMATORY MYELOPATHIES: RETROSPECTIVE ANALYSIS OF 105 CASES
Giai Via	Alessandra	University of Turin	Thunderclap headache: Ruptured Intracranial Aneurysm or Reversible Cerebral Vasoconstriction Syndrome?
Giannantoni	Nadia Mariagrazia	Catholic University	A novel TSC2 mutation causing tuberless tuberous sclerosis
Giannoccaro	Maria Pia	University of Bologna	Impairment of brain and muscle energy metabolism detected by Magnetic Resonance Spectroscopy in Hereditary Spastic Paraparesis type 28 patients with DDHD1 mutations
Giordano	Alfonso	Department of Medical, Surgical, Neurological, Metabolic and Aging Sciences - Second University of Naples	Clinical correlations of microstructural changes in progressive supranuclear palsy
Giorli	Elisa	Pisa	VOC analysis: a new tool to study olfactory impairment
Giovannini	Giada	University of Modena and Reggio Emilia	A short-term monocentric prospective observational study of refractory/super-refractory status epilepticus
Giuliano	Loretta	Università degli studi di Catania	DRUG RESISTANT FOCAL EPILEPSY IN A PATIENT WITH MYOTONIC DYSTROPHY TYPE 2
Guaschino	Clara	Vita Salute San Raffaele	IMPACT OF WGRS ON FAMILIAL AGGREGATION AND CLINICAL PHENOTYPES IN ITALIAN MULTIPLE SCLEROSIS PATIENTS
Iaffaldano	Pietro	University of Bari Aldo Moro	The risk of relapse after natalizumab discontinuation could be reduced? Results from the iMedWeb Registry
Iinsana	Iaura	Università degli studi di Siena	Clinical and neurophysiological findings and follow up in two cases of CANOMAD
Jorio	Giorgia	Politecnica delle Marche	RELAPSING TOLOSA-HUNT SYNDROME: A CASE REPORT.
Kaveh Moghadam	Keivan	Alma Mater - Università di Bologna	Paroxysmal kinesigenic dyskinesia due to PRRT2 gene mutation, the importance of tailored tasks for video recording.
La Starza	Sara	I Facoltà di Medicina e Chirurgia, Università "Sapienza", Roma.	Transcranial color Doppler Sonography and Moyamoya disease: when ultrasonography technique plays an important role in diagnosis and monitoring of a rare disease.
Iapucci	caterina	università di genova	A novel mutation in FTL gene (NBIA 3) in patient with progressive cerebellar syndrome
Leodori	Giorgio	Sapienza University of Rome	Cerebellar continuous theta burst stimulation in essential tremor
Leonardi	Cinzia Grazia	Magna Graecia	Asymmetry of Permutation Entropy in early Creutzfeldt-Jakob Disease: a clue to a specific pathological process?

**VINCITORI PROGETTO GIOVANI
XLV CONGRESSO SIN CAGLIARI 2014**

COGNOME	NOME	AFFILIAZIONE	Contributo scientifico
Lerose	Margherita	Sapienza	A case of acute onset chorea in an Asiatic diabetic woman during hemodialysis
Ieta	chiara	University of Bologna	Acute non-paraneoplastic ataxia in a patient with Contactin-associated protein-2 antibodies and benign course
Licchetta	Laura	University of Bologna, Department of Biomedical and Neuromotor Sciences	Evolution patterns of nocturnal frontal lobe epilepsy (NFLE)
Liguori	Claudio	Università degli studi di Roma "Tor Vergata"	CSF lactate levels, tau proteins, cognitive decline: a dynamic relationship in Alzheimer Disease.
Lo Giudice	Temistocle	CERC-IRCCS Santa Lucia	Hereditary Spastic Paraplegia: a novel mutation and expansion of the phenotype variability in SPG10
Lombardi	Gemma	Università degli studi di Firenze	Contribution of mother tongue on cognitive reserve of an Italian bilingual literature Professor
Lorenzuti	Simone	Università di Udine	EVALUATION OF CAROTID INTIMA-MEDIA THICKNESS IN PATIENTS WITH IDIOPATHIC RESTLESS LEGS SYNDROME
Lucchesi	Cinzia	Università di Pisa	Evidences of reduced antioxidant activity in chronic migraine patients with medication overuse headache.
Luigetti	Marco	Università Cattolica del Sacro Cuore	DISTINCT LYMPHOCYTES SUBSETS IN IGM-RELATED NEUROPATHY: CLINICAL-IMMUNOLOGICAL CORRELATIONS.
Luisi	concetta	Università degli Studi di Bari	Combined central and peripheral demyelination: clinical data and treatment options in four patients.
Lupidi	Francesca	Università politecnica delle Marche	SCLEROMYOSITIS: A TREATABLE CAUSE OF DROPPED HEAD SYNDROME
Lupo	Angela	University Magna Graecia	Unusual clinical features of a case of FXTAS
Maggi	Pietro	università di Firenze	The formation of inflammatory demyelinated lesions in cerebral white
Mancino	Paola Vincenza	University of Bari "Aldo Moro"	A case of Castleman's Disease associated with Myasthenia Gravis
Mancosu	Marco	Cagliari	Herpes encephalitis versus ischemic stroke: a case-report of differential diagnostic approach
Manera	Umberto	University of Torino	An Italian case of mitochondrial membrane protein-associated neurodegeneration (MPAN).
Mangiardi	Marilena	St. John of God Institute - Fatebenefratelli	MEMOFILM: AN EMOTION TO REMEMBER
Marcuccio	Laura	I Policlinico - II Università degli studi di Napoli	No evidence of microstructural changes in patients with vestibular migraine: a TBSS study
Margoni	Monica	Università degli Studi di Padova	New insights in migraine with aura patients: MRI evidence of cortical thickness change
Marini	Sandro	University of Florence	Vascular risk factor profiles in different neuroimaging expressions of cerebral small vessel disease: data from the VMCI-Tuscany Study
Masi	Gianni	University of Siena	Tumour-like multiple sclerosis after 18 years from diagnosis under immunomodulatory therapy
mazza	maria rosaria	University Magna Graecia	Severe vitamin D deficiency in patients with chronic migraine
Mazzon	Giulia	University of Trieste	PARTIAL SEIZURE AS PRESENTING SYMPTOM OF ISCHEMIC STROKE MIMICKING ASTROCYTOMA: A SINGLE-CASE REPORT IN A PATIENT WITH PATENT FORAMEN OVALE.
Menghi	Veronica	University of Bologna	â€œIn-depth neuropsychological assessment in patients with Nocturnal Frontal Lobe Epilepsy (NFLE)â€
Mignarri	Andrea	Università degli studi di Siena	Analysis of SLC20A2, PDGFB, and PDGFRB genes in Italian patients with Familial Idiopathic Basal Ganglia Calcification
Moccia	Marcello	University Federico II	Hypomorphic NOTCH3 mutation in an Italian family with CADASIL features
Monti	Giulia	University of Modena and Reggio Emilia	De novo refractory myoclonic status epilepticus and reversible claustrum hyperintensity in a young woman: which aetiology and correlation?
Morotti	Andrea	Università degli studi di Brescia	Enterococcal endocarditis presenting with subarachnoid hemorrhage
Mostile	Giovanni	University of Catania	Long duration response in Parkinson's disease patients treated with 250 mg of L-dopa once a day. A time-to-effect analysis.
Motta	Caterina	Tor Vergata	Interleukin-8 is associated with acute and persistent dysfunctions after optic neuritis
Naldi	Andrea	University of Eastern Piedmont, â€œAmedeo Avogadroâ€	Acquired selective prosopometamorphopsia as a rare onset of high grade astrocytoma: a case report
Nannoni	Stefania	Università degli Studi di Firenze	Normal pressure hydrocephalus associated with cauda equina neurinoma: a case report.

**VINCITORI PROGETTO GIOVANI
XLV CONGRESSO SIN CAGLIARI 2014**

COGNOME	NOME	AFFILIAZIONE	Contributo scientifico
Nardetto	Lucia	Università degli studi di Padova	Vascular risk factors and prevention therapy in patients with acute ischemic stroke: data from the Cerebrovascular Disease Registry of the Veneto Region
Naro	Antonino	Messina	A local signature of LTP-like plasticity induced by repetitive paired associative stimulation.
Novellino	Fabiana	National Research Council	Diffusion tensor MRI changes in patients with Essential Tremor with and without resting tremor: a 3T MRI study
Olivola	Enrica	University of Rome "Tor Vergata"	Limbic encephalitis with hyponatraemia due to anti-leucine-rich glioma inactivated-1 antibodies: case report
pappalardo	irene	Catania	Reflex traits in idiopathic generalized epilepsies: an EEG-fMRI study
Pardini	Matteo	University of Genoa	Souvenaid reduces behavioral deficits and improves social cognition skills in frontotemporal dementia: 12-week follow-up study
Pasini	Elena	Università di Bologna	Ictal asystole: a new intriguing issue in the management of epilepsy
Peila	Elena	universit� di Torino	ELECTROPHYSIOLOGICAL CHANGES INDUCED IN STROKE PATIENTS WITH LEFT MOTOR DEFICITS BY MOTOR CORTEX NON INVASIVE BRAIN STIMULATION (NIBS)
Piccirillo	Giovanni	Second University of Naples	Resting state fMRI continuum between Amyotrophic Lateral Sclerosis and behavioral variant Frontotemporal Dementia
PIROSO	SERENA	"SAPIENZA" UNIVERSITY	N-Acetyl-cysteine inhibits nociceptive pathway function. A combined animal and human study.
Poli	Loris	Università degli studi di Brescia	Giant cell arteritis presenting with anterior circulation ischemic stroke
Ponzalino	Valentina	Torino	McArdle Disease (Glycogenosis Type 5): long term follow up in a small cohort of Italian patients
Preziosa	Paolo	Vita-Salute San Raffaele University	Depressive symptoms in MS patients are associated with abnormal hippocampal resting state functional connectivity
Pustorino	Giuseppe	Magna Graecia University, Catanzaro, Italy	Type IC focal cortical dysplasia causing late-onset, fatal epilepsy. A case report.
Realmuto	Sabrina	Università degli Studi di Palermo	Pregnancies modify relapses and progression in multiple sclerosis
Ricci	Silvia	Ospedale Mater Salutaris	CARDIAC INVOLVEMENT IN GENERALIZED MYASTHENIA GRAVIS: A CASE REPORT
Ricci	Giulia	Università di Pisa- Università di Modena	Development of an updated comprehensive clinical evaluation form to be used for the detailed phenotypic characterization of subjects carrying D4Z4 reduced alleles.
Rinaldi	Fabrizio	Università degli studi di Brescia	A new adult phenotype in ASAHI-related Spinal Muscular Atrophy
Rinnoci	Valentina	University of Florence	A further case of cerebral hemorrhage in CADASIL: an update of the Florence sample
Rossi	Concettina	Catholic University of the Sacred Heart	C9ORF72 REPEAT EXPANSION ANALYSIS IN A CLINICAL SERIES OF SPORADIC FTLD PATIENTS
Rota	Silvia	Università degli Studi di Brescia	Reversible dropped head syndrome as a revealing feature of a mitochondrial myopathy
Sagnelli	Anna	0	Clinical and biological features of Spinal Bulbar Muscular Atrophy (SBMA): outcome measures, natural history and pathogenic models.
Salvino	Dania	Magna Graecia University	Cutaneous allodynia related-effects upon the injection of Onabotulinumtoxin A by using follow the pain approach for chronic daily headache
Sanfilippo	Cristina	University of Catania	Late onset Rasmussen Encephalitis presenting as somatoform disorder.
Saracchi	Enrico	Università degli studi di Milano-Bicocca	A CASE OF FLORBETAPIR-NEGATIVE LOGOPENIC PRIMARY PROGRESSIVE APHASIA WITH PARKINSONISM AND NIGROSTRIATAL DENERVATION
Saracino	Dario	Second University of Naples	An atypical case of sporadic presenile dementia
Scarafino	Antonio	University of Bari	Tau and Phospho Tau in CSF of Amyotrophic Lateral Sclerosis.
schettino	carla	Second University of Naples	An atypical case of gliomatosis cerebri, resembling acute disseminate encephalomyelitis (ADEM) at the onset.
schirinzi	tommaso	roma tor vergata	The cerebello-thalamo-cortical pathway in SWEDD patients. A TMS study.
SCIALO'	CARLO	Università degli Studi di Genova	Retinal thickness evaluation in a cohort of ALS patients. C. Scialo' (1), M. Pardini (1), C. Cordano(1), C. Cabona(1), M. Cellerino(1), G. Bommarito(1), D. Sassos(1), S. Telani(1), M. Iester(1), L. Roccatagliata(1), G. Mancardi (1) C. Caponnetto (1). (1) Department of Neuroscience, Rehabilitation, Ophthalmology, Genetics and Maternal-Infantile S
semplicini	claudio	Università di Padova	Myopathy-Lactic Acidosis- Sideroblastic Anemia (MLASA) syndrome: new clinical findings and novel PUS1 gene mutation

**VINCITORI PROGETTO GIOVANI
XLV CONGRESSO SIN CAGLIARI 2014**

COGNOME	NOME	AFFILIAZIONE	Contributo scientifico
Senes	Chiara	Università degli Studi di Sassari	Spinal cord involvement as first manifestation of systemic sarcoidosis.
Signoriello	Elisabetta	Seconda Università di Napoli	Palatal myoclonus associated with medulla oblongata impression due to dolichoectasia of the basilar artery: a case report.
Simeoni	Sara	Udine	Subacute disulfiram neuropathy misdiagnosed with Guillain-Barré syndrome
SORRENTINO	Pierpaolo	Federico II	MOVEMENT IMPAIRMENT IN GAUCHER DISEASE TYPE 1
Sottile	Fabrizio	University of Messina	ULTRASOUND AND HIGH-FIELD MAGNETIC RESONANCE IMAGING: COMPARISON OF STENOSIS CAROTID
Spano'	Barbara	Santa Lucia Foundation, IRCCS	Brain reorganization induced by foot motor imagery training: a case report
Sparaco	Maddalena	Second University of Naples	dVRS and Fatigue: is there a link? Magnetic Resonance retrospective 3T study.
Spinelli	Edoardo Gioele	Università Vita e Salute San Raffaele Milano	Structural MRI reveals distributed cortical thinning in patients with pure lower motor neuron disease variants
Stabile	Carmen	Scuola di Dottorato Università di Firenze Siena	A case of Hereditary Diffuse Leukoencephalopathy with axonal Spheroids (HDLs) carrying a novel CSF1R mutation
Stipa	Carlotta	Bologna	ADULT PATIENTS WITH ENCEPHALOPATHY AND EARLY ONSET EPILEPSY: A CLINICAL AND GENETIC STUDY OF 64 CASES
Strigaro	Gionata	Università del Piemonte Orientale "Amedeo Avogadro"	VISUO-MOTOR CONNECTIVITY IN PHOTOSENSITIVE EPILEPSIES
tallarico	tiziana	magna graecia	Resting-state brain networks in early multiple sclerosis: a one-year follow-up study
Terlizzi	Rossana	BOLOGNA	An inflammatory myopathy unmasks a case of leprosy in an Italian patient
Tesolin	Lucia	Scuola di Specialità di Neurologia	A case report of autoimmune encephalitis: atypical onset and therapeutic challenge
todeschini	alice	Università degli Studi di Brescia	Late-onset dystrophinopathy due to a novel intronic mutation resulting in a reading frame defect: an exception to the Δ core-reading frame rule
Tondelli	Manuela	Università di Modena e Reggio Emilia	Implicit anosognosia in alzheimer's disease and mild cognitive impairment: a functional fmri study
Tondo	Giacomo	University of Eastern Piedmont "Amedeo Avogadro"	An unusual case of Wernicke's Encephalopathy in a nonalcoholic patient
topa	antonietta	federico ii	Electrophysiological characterization in adult form Niemann-Pick type C disease
Trimboli	Michele	Magna Graecia University	Changes in CSF pressure during Trendelenburg Position (TP) are associated with pain worsening/improving in headache sufferers with intracranial pressure disorders
Ursino	Giulia	Genova	Focus on the genetic investigation of specific genes in patients with strictly length-dependent neuropathy. Ursino G, Balestrero R, Garnero M, Mandich P, Geroldi A, Capponi S, Reni L, Fabbri S, Grandis M, Bellone E, Schenone A. Department of Neuroscience, Rehabilitation, Ophthalmology, Genetics, Maternal and Child Health (DINO GMI), University of
Valenti	Raffaella	degli Studi di Firenze	Assessment and frequency of cerebral microbleeds in the Vascular Mild Cognitive Impairment (VMCI)-Tuscany Study" cohort: reliability and feasibility of the MARS scale.
Vannini	Eleonora	AOUC Careggi Firenze	Hashimoto's encephalopathy or psychiatric disorder? A case report
Vasta	Rosario	Università degli studi di Catania	Incidence of Amyotrophic Lateral Sclerosis in the Province of Catania: a possible role of volcanic environment in pathogenesis.
Vecchio	Domizia	A. Avogadro Università del Piemonte Orientale	Post lumbar puncture headache: not predictable adverse effect in patients with an history suggestive for multiple sclerosis.
Vinciguerra	Luisa	Catania	An unusual case of Neurobrucellosis mimicking stroke-like episodes
Volonghi	Irene	University Hospital Δ Spedali Civili Δ C, Brescia, Italy	Acute statin-induced neuromyopathy: a rare condition with severe prognosis
Zanchi	Clara	Milano Bicocca	A rare case of acute polyradiculoneuritis following Listeria Monocytogenes meningitis
Zelante	Giuseppe	University of Catania	Ataxia with vitamin E deficiency caused by a new compound heterozygous mutation.
Zivi	Ilaria	"Tor Vergata" University	Missing links in hemodynamics: hypertrophic hearts and hypoperfused brains
