

Con l'intento di fare cosa gradita si informano

tutti gli interessati delle seguenti attività

- **BN ROUND_FREEDMAN 2019**

On behalf of the Canadian Neurological Society and the Division of Neurology, University of Toronto, we would like to invite neurologists, and other health care professionals in Italy interested in neurology, to participate in our weekly International Behavioural Neurology Videoconference Rounds.

These rounds were established in 2005 and have been broadcast monthly. We have recently adopted the Zoom platform which makes participation very easy by simply clicking on a link. Thus we are now broadcasting the rounds internationally each week. Participants can join using their own computers or through computer systems set up to project the rounds in auditoriums and rooms at their hospitals or universities.

Please let you know that if you would like to receive weekly notices about the rounds, along with the link to register and connect, you should contact the administrative support secretary Sandy Penwarden at SPenwarden@baycrest.org with a copy to mfreedman@baycrest.org and provide a contact name and email address, and they will add you to the distribution list.

In addition to audience participation, they look forward to colleagues in Italy also giving presentations to our international partners.

There is no cost to register and participate in the rounds. The goal is to share knowledge in behavioural neurology across the world.

- **13Th EUROPEAN PAEDIATRIC NEUROLOGY SOCIETY (EPNS)**

On behalf of the Hellenic Paediatric Neurology Association, as well as the Organizing Committee and the Scientific Committee, it is our great pleasure to introduce you to the 13th European Paediatric Neurology Society (EPNS) Congress 2019, in Athens, Greece. (17-21 September 2019).

To find out more about the Congress, please follow this important link: <http://www.epns2019.org>.
