RARE DISEASES & NEUROSCIENCES

The main aim of the CISSN 2022 is to bring together junior European fellows and expert investigators, working on different aspects of Rare Diseases in Neurosciences, from clinical perspectives to multiomics' approaches, and to provide a forum for new directions and ideas in the Rare Neurological Diseases field.

Scientific Director:

Prof. MICHELANGELO MANCUSO, MD, PhD, Department of Clinical and Experimental Medicine, *Neurological Institute University of Pisa & AOUP, Italy.*

Main Topics: Cerebellar Ataxias - Rare Movement Disorders - Muscle Diseases - Mitochondrial Diseases - Multiomics and NGS - Motoneuron Diseases - Leucodystrophies.

Confirmed Speakers:

Prof. KAILASH BHATIA, FRCP, Professor of Clinical Neurology, *Institute of Neurology, UCL Queen Square, London, UK.*

Prof. MASSIMILIANO FILOSTO, MD, PhD, FEAN Associate Professor of Neurology, *Department of Clinical and Experimental Sciences, University of Brescia, Italy. Clinical Director NeMO-Brescia Clinical Center for Neuromuscular Diseases, Brescia, Italy.*

Dr. HOLM GREASSNER, Managing Director of the ZSE Tübingen and Head of the Research Management Unit of the *Institute of Medical Genetics and Applied Genomics at the University Hospital Tübingen, Germany.*

Prof. Dr. THOMAS KLOPSTOCK, Department of Neurology, *Klinikum Grosshadern Ludwig-Maximilians-University, Munich, Germany.*

Prof. HOLGER PROKISCH, PhD, Head of the Research Group "Genetics of Mitochondrial Disorders" at the Institute of Human Genetics of the *Technical University Munich* and of the *Helmholtz Zentrum München, Neuherberg, Germany.*

Dr. VALERIA TIRANTI, Head of Molecular Pathology of Mitochondrial Diseases, Unit of Medical Genetics and Neurogenetics, *Fondazione IRCCS Istituto Neurologico Carlo Besta, Milano, Italy.*

The program with modalities and terms of registration to the event, will be published on the portal www.biometec.unict.it
