

28th Annual RIMS Conference

May 4-6, 2023
Genoa, Italy

Dear colleague,

Join us in Genoa, Italy from **Thursday, May 4th** until **Saturday, May 6th, 2023** for the **Annual RIMS Conference 'Translating Knowledge into Practice: Embracing the Complexity of MS Rehabilitation'**!

Call for Abstracts

- **Deadline:** Tuesday, February 14th, 2023 (23:59 CET)

The deadline for abstract submission is approaching fast! **Submit your abstract before February 14** to be considered for a poster presentation, an express session (oral presentation of 2 minutes, on stage) or a platform presentation (oral presentation of 10 minutes, on stage).

- Abstracts should be submitted via the available link below
- All submitted abstracts that fulfill the submission criteria, will be screened and considered for presentation by reviewers, appointed by the Scientific Committee,

which will send a notification regarding acceptance or rejection of abstracts to the submitting author via email

- Accepted abstracts are published in the Multiple Sclerosis Journal after the conference
- There is no cost linked to abstract submission or poster presentation
- Late breaking abstracts will not be accepted
- Abstracts with commercial content will not be accepted
- Posters are centrally displayed close to the plenary room

Submission Groups:

- MS Rehabilitation within and across the ICF Domains
- Application of Current Technologies in MS Rehabilitation
- Multidisciplinary Rehabilitation in MS
- Promising Technologies that can Help Advance MS Rehabilitation
- Translation of New Rehab Knowledge into Practice

Submit your Abstract

Programme & Speakers

Check out the **scientific programme** on the event website!

The Conference is preceded by a Teaching Course on

- 1) The Use of Virtual Reality, Soft Robotics and Robotics in MS,
- 2) Physical Activity and Sport in MS,
- 3) Clinical, Technological and Research Aspects of Bladder, Bowel and Sexual Disorders in MS and a PhD Session.

Furthermore, participants have the possibility to attend one of the Special Interest Group meetings (Patient Autonomy, Communication & Swallowing, Psychology & Neuropsychology, Occupation, Mobility, Bladder, Bowel & Sexuality).
